

## **DHL Rate Increase 1<sup>st</sup> April 2025**

**Hello everyone,**

**Please could we bring to your attention the below notice from DHL.  
This in regard to a rate increase effective 1<sup>st</sup> April 2025.**

“

In 2025, like many UK businesses, we have faced rising operating costs, including upcoming government-mandated changes to employer contributions in April.

To address these challenges and maintain our high service levels, we will be adjusting our shipping rates.

The increase in rates will be effective 1 April 2025 and will be an average increase of 1.9%\*.

We appreciate price increases are never welcome, however, we hope you understand the necessity in making this change to ensure the high standards of service are sustained.

Should you have any questions, please do contact us.

*\*The rate increase will not apply to shipments sent using DHL Globalmail, Time Definite Third Country, and Day Definite Third Country.*
